*Healing Tao Qigong is a strong Self-Care modality for Energy Practitioners, & Novices alike. It aids self healing for those who practice, helps raise your vibration, and increases **Longevity**. The basic premise behind Qigong is that our bodies are filled with channels through which energy or "Chi" flows. The less obstructed the chi flow, the greater the opportunity for health, vitality, increased personal vibration, and awareness. Personal Qigong practice will improve and increase your energy flow using your movement, intention & meditation.*
